

Raises

ron anzalone to me

10:27 AM

We are dead against any raises for the state legislators. They are not doing their job and it is only a part time job. Any raise to them should require the voters to approve. They should not have the authority to approve their own raise. They also need to change the 3 men in a room making all the key decisions and than throwing them at the legislators with little to no time to approve so a budget can ve passed on time. We also need term limits to avoid the corruption that exists in Albany. The longer they are in office the better the opportunity to become corrupt. Ethic reform in Albany is a joke.
