good day if they want a 47% pay raise they better be there everyday and do there job how many have a 100% probly none so if there not going to work for the people of new york then they should not get a raise i do under stand you have had a raise senece 99 but come on nearly 50%all at once give me a break we needed to see everyones attendance record and how they voted if there record is less then 70% no raise sorry if there record is 100% thenn they get one but they need to give up some perks if you get 47% there no more room and board or car they cant have both
