To Whom Ever.....

Re: 47% pay increase for the NYS legislators.

I think this is by FAR TOO EXORBITANT. Since their last increase in 1999 they have said nothing regarding new pay raises. Obviously they thought that was fair for a PART-TIME JOB with plenty of off-time & they most likely have a far superior health care plan, coupled with a very good retirement package..... including \$ allowances for travel & whatever.

Is this another attempt to be #1 in the nation along with the highest taxes, poorest roads & bridges, & more people leaving the state than entering (and who is coming here?...more welfare/needly people....no real tax payers).

I SAY NO 3% -5% that's all.

Lawrence Weir.... Tax Payer
