Michael McQuade to me

Aug 11

Good Morning

These individuals getting an expected 47% raise are elected officials I would love that kind of raise but with the 2% tax cap I'm lucky to get a quarter. My position is appointed as I need to do 3 positions with my municipality even to get health insurance and retirement to make a living and these people want a 47% wage try living in the real world

Michael J McQuade
