To quote the Schenectady Gazette

ARE YOU OUT OF YOUR MINDS?!

A legislature which is widely considered to be the most dysfunctional and corrupt one in the entire US is not deserving of any raise much less one of the proposed size.

This is only a part time job. They also get per diems as well as benefits.

If they think the compensation is insufficient they are free to not run and make their way in the private sector.

Shame on you for this outrageous proposal.
