Dear Commission,

I would like you to take into consideration, requiring legislators (not Governor/judges) to report how they spend their time. While all State employees are required to fill out time cards, Legislators are not. As this is a part time job and they are paid more than fairly, I think the public has a right to know how they are spending their time. They should be informing the public, how much time they spend working on public matters (break down of time spent in Albany and in their districts and what they were doing: meeting with constituents, businesses, lobbyists; committee meetings; etc.) and on campaign activities.

Thank you for your consideration.

Joanne Withkowski
